

FALL SEMINAR 2018 Water Management Solutions.

Stay Up-to-Date on the Proper Treatment of your
Boilers, Ammonia Condensers and Cooling Systems

Attention: Boiler Operators, Facility Directors, Maintenance Supervisors and Plant Engineers

What Can You Expect?

- Learn (or refresh your knowledge of) the principles and fundamentals of the care and treatment of boilers and cooling systems
- Learn at least six ways to reduce the cost of your water treatment program
- Understand the newest all-organic corrosion inhibitors
- Hear the latest updates on Legionella regulations and control

Led by Jerry Meyer from Niagara Training & Consulting in Lancaster, NY, the material is presented in easy-to-understand, non-technical language and practical application is stressed throughout.

Brought to you by Solid Blend Technologies – local provider of Legionella control services + industrial, commercial, and institutional water treatment

AGENDA:

8:00 – 10:00	Corrosion: Cause & Effect; Scale: Cause & Effect.
10:15 – 12:00	Corrosion Control, Scale Control, External Treatment
12:00 - 1:00	Lunch (Included)
1:00 – 2:00	Fouling: Cause & Control
2:15 – 3:30	A background on Legionnaires' Disease; What Has Happened in New York; Looking at the ASHRAE guides, OSHA and CDC; Biocide Selection
